

Publication and studies:

- 1) A comparison of a monofocal Acrysoft IOL using the "blended monovision" formula with the multifocal Array IOL of glasses independence after cataract Surgery. **Annals of Ophthalmology** Vol.39 #3 Fall 2007
- 2) the review of the changes of Britain's National Health Service for the impending change of the United States. **Hawaii Medical Journal**, Oct, 2009
- 3) a retrospective randomized study to compare the energy delivered using CDE in different technique and Ozil setting by different surgeons in Phacoemulcification. **Clinical Ophthalmology** 2009; 3 1-3
- 4) Supranuclear phacoemulcification presentations at join meeting of Taiwan cataract and refractive society and AAO June 2008, Presented on web site of ISRS/AAO
- 5) Objective vision test using OKN(Optic kinetic Nystagmus)
- 6) A critique of the changes in Hawaii's Medicaid System, **Hawaii Medical Journal** Oct. 2009
- 7) A Comparison of Monofocal Intraocular Lens (Acrysoft) in Mini-Monovision (MMV) with Premium Multifocal Implantation of ReSTOR, **Clinical Optometry**, 2009
- 8) Comparison of the corneal astigmatism induced by phacoemulcification: clear temporal corneal Incision versus sclera tunnel Incision, **Journal of Ophthalmology**, 2009.
- 9) 6 Steps to Maximize Success with Pseudophakic Monovision 6 steps to Maximize Success with Pseudophakic Monovision, contributor, **Ophthalmology management**.2008
- 10) Textbook contributor and editorial board. **Lens Disorders & Surgical Management**. Guangzhou China 2005.
- 11) The method of clinical audit and its effectiveness in United Kingdom.
- 12) The future direction of cataract surgery **International Journal of Medical & Biology** 2009

- 13) ORange guided LRI (Limbal Relaxation Incision) in pseudophakic eye. A video publication at **Eyetable.net 2009**
- 14) LRI (Limbal Relaxation Incision) and toric IOL with ORange verification. A video publication **Eyetable.net 2009**
- 15) Comparison of CDE data in phacoemulsification between an open hospital-based ambulatory surgical center and a free-standing ambulatory surgical center, November 2010, **Volume 2010:4 Pages 1287 – 1289, Clinical Ophthalmology**
- 16) Correlation between ORange[®] (Gen 1, pseudophakic) intraoperative refraction and 1-week post cataract surgery autorefracton, **2011, Volume 2011:5 Pages 197 – 199, Clinical Ophthalmology**
- 17) A study to compare single piece IOL (SN60WF) vs. multipiece IOL (MA30AC) in accommodation using cycloplegic auto refraction” **Journal of clinical and experimental Ophthalmology 2010**
- 18) Correlation between ORange[®] (Gen 1, pseudophakic) intraoperative refraction and 1-week post cataract surgery autorefracton, presentation at join meeting of American Academy of ophthalmology annual meeting and international Society of Refractive Surgery Chicago, 2010
- 19) Late Posterior dislocation of an in-the-bag IOL, presentation at SCORH (Study Club of Research Hawaii) meeting, 2010
- 20) “The sandwich phacoemulsification- a novel technique for the safety of phacoemulsification” presentation at lunch symposium TSCRS, 6/19/2011, Taipei, Taiwan
